TUAN T. LAM
PRIMARY EXAMINER

Art Unit: 2816

1. The following is an examiner's statement of reasons for allowance: the amendment filed 6/14/2005 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest a controller comprising a timing circuit and a sequencer electrically connected to the timing circuit and the electrical switch, wherein the timing circuit is configured to generate, with a predetermined delay, a timing circuit trigger input signal to the sequencer, in response to an event signal which signifies an anticipated sudden change in power demand in the on-chip switching circuits, and wherein the sequencer is configured to pen the electrical switch in response to the generation of the timing circuit trigger signal as called for in claims 1 and 9, a controller comprising a first comparator and a sequencer electrically connected to the first comparator and the electrical switch, wherein the first comparator is configured to generate a first comparator trigger input signal to the sequencer, in response to the voltage across the power distribution circuit abruptly increasing, and wherein the sequencer is configured to pen the electrical switch in response to the generation of the first comparator trigger signal as called for in claims 5 and 13. Therefore, claims 1-3, 5-11 and 13-16 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).
